BUILT ON SUSTAINABILITY

We look after the planet with the same care as we look after our guests.

You can relax knowing that everything from your super comfy bed to the locally sourced ingredients on our menu are designed to reduce our impact on the environment.

Adopting large-format bathroom amenities reduces plastic waste.

The filling of our indulgent bedding is made from 100% recycled materials.*

Filtered water in meeting areas and guest rooms. By serving water in glass bottles, 300+ plastic bottles are foregone in every guest room each year.

Aerated shower heads, reduces water usage and ensures lower energy consumption for water heating.

Using biodegradable take-away coffee cups, instead of traditional alternatives, reduces our impact on the environment.

“Green ingredients” in bathroom amenities, obtained from sustainable or renewable plant-based origin, where its sourcing does not negatively impact the ecosystems.

SAVING THE BEES

Did you know our rooftop is also home to 300,000 bees?

We even have a resident beekeeper who looks after them!

Our Chefs then use the honey in our signature honey and lavender welcome shortbread biscuits, at the breakfast buffet and wherever they can throughout our Banquet & Events menu.

IHG built its reputation on a long-standing commitment to guests' and colleagues' health and safety.

We continue our commitment to deliver on that promise using new science-led protocols and service measures, partnering with industry leading experts and launching a global 'IHG Clean Promise'.

With the 'IHG Clean Promise', guests are reassured that:
Good isn't good enough – we're committed to high levels of cleanliness.

That means clean, well maintained, clutter free rooms that meet our standards.

If this isn't what you find when you check-in then we promise to make it right.
